

The Cooperative and Experiential Education Division (CEED) of ASEE invites papers for the 2024 ASEE Annual Conference at the Oregon Convention Center in Portland, June 23-26, 2024.

Deadlines:

- Abstract Submissions Open – Sunday, October 1st, 2023
- Abstract Submissions Due – Wednesday, November 1st, 2023
- Draft Paper (for abstracts that are accepted) Due – Thursday, February 1st, 2024
- Revised Paper (for draft papers that are accepted) Due – Friday, March 8th, 2024
- Finalized, Unblinded Paper Upload Due – Wednesday, May 1st, 2024

New this year: ASEE says they will NOT be extending deadlines this year, so do not rely on an extension.

TOPICS. Special consideration will be given this year to topics related to the following areas. This is not a comprehensive list.

- Using co-op/internships for assessment and ABET accreditation
- Ethics and the impact of engineering related to co-op/internships
- Diversity, equity, and inclusion topics related to co-op and internships
- Impact of remote working on experiential education outcomes
- Integration of credentialing and badging in curriculum and experiential programs
- Reengagement after COVID impact – utilizing experiential education
- Using experiential learning in course curriculum
- Successful strategies for broadening participation in co-op/internships/experiential learning for under-represented student groups
- Effect of co-op/internships/experiential learning on student retention
- Effect of co-op/internships/experiential learning on students' self-efficacy
- Review of literature relevant to co-op and internships

Paper Submission Pathways!

CEED is offering two paper submission pathways: Research Track and Work-in-Progress, subject to the number and type of submissions received and accepted. All ASEE divisions, including CEED, are publish-to-present. Both tracks require submission of an abstract and paper that will be peer reviewed (double-blind review process); however, the type of paper for each track is different. Engineers or cooperative education and experiential education professionals from either academia or industry should consider submitting papers that are relevant to cooperative education, internships, experiential or work-integrated learning. This includes every form of experiential education including but not limited to service learning, capstone projects, undergraduate research, internships, co-ops and apprenticeships.

WORK-IN-PROGRESS TRACK. Abstracts and papers submitted to this track can be categorized as work-in-progress (WIP). This track is suitable for co-op and experiential education practitioners, as well as researchers who are still in the early stages of their study. This special format is intended to give authors of WIPs the opportunity to pitch their papers in a short presentation, followed by discussion of their work in greater detail with attendees. Papers are shorter papers (6 pages or less). The structure at the conference will include short presentations (3-5 minutes) and facilitated discussion and questions. Papers in this category should have Work in Progress as part of their title.

RESEARCH TRACK. This track is suitable for complete research papers: evidence-based practice papers, research papers, and theory papers. Abstracts should address Background and Motivation, a description and justification of methodology, results and data analysis and conclusions and significance.

PANEL SUBMISSIONS. These sessions should be centered around a specific topic and enlist three to five panelists and at least one moderator to share experiences or work. Panels should be interactive and allow for questions or discussion that move across all panelists. Panel submissions can be sent directly to the ASEE Program Chair: Mary Andrade
University of Louisville
Mary.andrade@louisville.edu

Author Guidelines:

- Please note that both the abstract and the draft paper reviews are double-blind, so do not include personal or institutional identification.
- **Abstracts:** Submitted abstracts should be approximately one page or less in length, with a suggestion of 250-500 words.
- **Full Paper submissions:** full paper submission should be approximately 10-20 pages in length, inclusive of figures and other graphical elements.
- **Work In Progress Papers:** work in progress paper submissions should be 6 pages or less in length.
