2024 ASEE NSF Grantees Poster Session

The **NSF Grantees Poster Session** invites you to participate at the **2024 American Society for Engineering Education (ASEE) Annual Conference and Exposition**. The event will be held in ***Portland, Oregan from 23rd to 26th of June, 2024***. The poster session is intended for PIs with active projects in the engineering education or closely related fields. The session provides a high visibility venue to disseminate the results and interact with fellows and colleagues. Note the following submission schedule:

- Abstracts:
    - Submission Window Opens: Sunday, 1st of October, 2023
    - Due Date (i.e., submission closes): Wednesday, 1st of November, 2023
- Paper (for accepted abstracts):
    - Draft Paper Due Date: Thursday, 1st of February, 2024
    - Revised Paper Due Date: Friday, 8th of March, 2024
    - Finalized Paper, Unblinded Paper Upload Date: Wednesday, 1st of May, 2024

Please refer to published ASEE's "Important Dates and Deadline" webpage for the most up-to-dates deadlines for submissions, and registration. However, **ASEE will not extend deadlines this year.**

Summary Points for this Call for Papers:

- If you have more than one qualifying award, you may submit more than one abstract as long as you are prepared to display and cover more than one poster board.
- Everyone who submits an abstract will be asked to review a few abstracts. You will not have to review the associated papers. Please help make this session run smoothly by accepting the invitation to review.

Abstract Submission Guidelines:

During the abstract submission process, it is **VERY IMPORTANT** that you select the **NSF Grantees Poster Session as the "Primary Division"** to which you submit. It is near the bottom of a drop-down list. Please be aware that the **ASEE Annual Conference is "publish to present"**. This means that participation in the poster session is contingent on your submission of a paper to the conference proceedings. While full-length papers are encouraged, for this specific poster session, submitting a short paper (minimum of 2 pages) summarizing your actives and results is also acceptable.

Abstracts are submitted via a text box only. The title must be included. Submissions are done in a double anonymous. As such, author and/or affiliation information should not be included in the abstract. Do not include footers in the abstract. The length of the abstract should be limited to 500 words and not less than 250 words. Author/Co-Author biographical information should be saved to NEMO. The biographical information will be automatically added to your paper at the end of the process. Do not include session numbers in any part of the document/documents.

In general, the abstract should: 1) include the pedagogical theory/approach used as appropriate, 2) indicate the outcome(s) of the conducted research/activities, and 3) the method of assessment that has been applied. All submissions are subject to the ASEE Plagiarism Policy.

Paper Submission Guidelines:

If your abstract is accepted, you will be invited to submit the draft paper version. Please include the reviewer comments to the abstract in your draft paper. Also, note that acceptance of your abstract does not guarantee that your paper will be accepted.

ASEE uses a double-blind review process, authors' names or institutional names should not be included in the abstract, references, filename, or document properties.

Reviewers will evaluate your paper based on the best paper rubric.

Authors should submit a response to reviewer feedback as well as a track-changed document for revised papers.

Submission Format and Author's Submission Kit

All abstracts and papers must be submitted electronically via ASEE's New Monolith (NEMO) paper submission system. Authors are expected to consult the Author's Kit at the following link: Author's Kit.

For any concerns or questions please contact the 2024 ASEE NSF Grantees Poster Session Chair:

Muhammad M. Sherif, PhD

Assistant Professor

Department of Civil, Construction and Environmental Engineering
